# Emixa Teamcenter® Foundation & Foundation LITE

Emixa Teamcenter® Foundation is a pre-configured PLM offering, based on Siemens Teamcenter® (#1 PLM system worldwide by users) that can be deployed in a fraction of the time of conventional PLM deployments, allowing you to be fully productive in weeks rather than months or even years. It is, as the name implies, a foundation for building whatever you need in the future…

Emixa Teamcenter® Foundation LITE is a streamlined PLM solution built on Siemens Teamcenter®, designed for rapid deployment with full PDM capabilities. Ideal for smaller teams or those starting their digital journey, it includes remote deployment, cloud or on-premise infrastructure, and seamless integration with NX or Solid Edge. Combined with the Emixa Training Passport and Virtual PLM Administrator, it enables you to get productive fast—without the complexity or overhead of a full-scale deployment.

Key benefits of Emixa Teamcenter® Foundation & Foundation LITE

1. Rapid Deployment
Customers can be live within the system in a matter of days or weeks.

2. Pre configured
No need for lengthy requirements gathering sessions or application development requiring valuable staff to be involved by the customer.

3. Affordable
The amount of configuration required is kept to a minimum enabling us to vastly reduce the cost.

4. Scalable
Easily upgraded or extended in the future into other areas of interest such as Change Management, Classification, and Multi BOM Management.

5. A Complete package
Includes integration to CAD (NX or Solid Edge) with no additional cost, the option of training, and a pre-configured data model and workflows.

What's included

Capability	NX / Solid Edge X Essentials	Emixa Teamcenter Foundation			Teamcenter
		LITE (Expanded later to PLUS)	**Standard** (Expanded later to PLUS)	**PLUS** (All PLM options)	
Typical Named User Band	<=5	<=10	<=50	Unlimited	Unlimited
Deployment Model	SaaS	On-Prem / Private Cloud	On-Prem / Private Cloud	On-Prem / Private Cloud	On-Prem / Private Cloud
PDM vs PLM	PDM Only	PDM	PDM	PLM	PLM
Implementation	Siemens hosted, remote	Remote unattended	Remote / On-site	Remote / On-site security cleared as needed	Tailored consultancy
MCAD Integration	SE or NX	SE or NX	SE or NX	All main CAD	All main CAD
BOM Management	CAD only	CAD/PDM	CAD/PDM	CAD/PDM Advanced options	CAD/PDM Advanced options
Document Management	-	√	√ Office integration	√ Office integration Document templates	All options
Training	Training Passport option	Training Passport	Included	Included	All options
Feature Compare	• Basic workflow • 6-digit part number with override • Alpha revisions	• Release workfow with approval • 6-digit part number with override • Sample drawing • Border and full attribute mapping • Alpha revisions • Client build guide	As per LITE, PLUS... • Customer data model • Basic part number clock • Drawing Border • Assistance with customer mapping • Alpha or numeric revisions • Client build script	As per Standard, PLUS options of... • Bespoke workflow • Advanced part numberring • Advanced revisions • Single sign-on/ HTTPS	All options
Change Management	-	-	-	From basic to full CMII	From basic to full CMII
Other modules, e.g. Schedule Management, Classification, ERP Integration, ECAD, etc	-	-	-	All options	All options

All include Revision Control, Visualisation, Markup, Discussion Threads, Fast Searching with Filters, Check In/Out.

About Emixa

We at Emixa are a Digital Transformation specialist that help make businesses more agile and efficient through the use of world leading core technologies; PLM, ERP and Low code. To drive maximum efficiency and seamless collaboration, we also provide services in management consulting, integration and data analytics which create business value and increase competitive advantages leading to optimal performance and results. With a focus on the design and manufacturing industry, coupled with our decades of experience and global footprint, we at Emixa can help your business innovate, accelerate and attain new heights.
